-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

- 6) ☐ Other: ____.

Applicant is advised that should claims 11-15 be found allowable, claims 16-20 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claims 21-26 are objected to because on line 7 of claim 21, the word "coipled" is misspelled.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 11-20, are rejected under 35 U.S.C. 102(b) as being anticipated by US 4614085 (Neukomm).

Neukomm discloses a pneumatic engine comprising a rechargeable inflatable compressed air canister 13, an inlet manifold 16, a means including a valve 16, 17, which can be open to allow a continuous flow of air from the canister to the engine.

Claims 21-26 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. 4329806 (Akiyama et al).

Akiyama et al discloses a pneumatic engine comprising a rechargeable canister 20, an engine cylinder 12, a valve 90, the chamber formed by reference numeral 46 clearly has two channels, one channel 42 is connected with the canister 20, and a second channel 48 being connected to said valve, and also a third channel 64 is also connected to said valve 90.

The reissue oath/declaration filed with this application is defective because it fails to contain the statement required under 37 CFR 1.175(a)(1) as to applicant's belief that the original patent is wholly or partly inoperative or invalid. See 37 CFR 1.175(a)(1) and see MPEP § 1414.

The declaration fails to identify at least one error being relied upon as a basis for the reissue that is indeed an appropriate error for reissue. Specific changes or amendments to the claims must be identified. If new claims are presented, their differences from the original claims must be pointed out. Applicant filed a statement under 37 CFR 1.173(c) on December 17, 2001, which identify the error. However, the declaration fails to refer to that statement, and that statement fails to identify the differences between the new claims from the original claims.

Claims 1-26 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.
